

Math Home Note: December 2, 2016

6th math Blue: Chapter 3 Test will be on Monday. We will start a mini-unit on number theory. We will learn divisibility rules, find the prime factorization of numbers, and use it to find the Greatest Common Factor & Least Common Multiple of groups of numbers.

6th math Red: Quiz 3-3 will be on Tuesday. Chapter 3 Test will be on Thursday. This has been a long chapter. It is important for students to look back over what was covered at the beginning of the chapter. Friday, we will learn divisibility rules.

7th math Blue: We will find the Greatest Common Factor and Least Common Multiple of groups of numbers. Quiz 4-1 will be on Thursday. It will cover divisibility, prime factorization, GCF & LCM. Friday, we will learn about ratios.

7th math Green: Quiz 3-2 will be on Monday. We will learn about the Pythagorean Theorem and how to apply it. Quiz 3-3 will be on Friday. Chapter 3 Test will be on Tuesday, December 13.

8th Algebra: We will use graphing calculators to plot data and find an appropriate trend line. We will learn about arithmetic sequences. Quiz 3-2 will be on Thursday. Chapter 3 Test will be on Monday, December 12.

8th math Green: Quiz 3-2 will be on Monday. We will learn about the Pythagorean Theorem and how to apply it. Quiz 3-3 will be on Friday. Chapter 3 Test will be on Tuesday, December 13.
